

t tess pre conference questions

T TES Pre Conference Questions: Preparing for Effective Special Education Meetings

t tess pre conference questions are an essential part of the process for educators, administrators, and special education professionals aiming to enhance classroom experiences and meet student needs effectively. These questions help frame conversations before formal conferences, setting the stage for productive discussions regarding teacher evaluations, student progress, and instructional strategies. Understanding the role of T-TESS (Texas Teacher Evaluation and Support System) and how pre-conference questions fit into this framework can empower educators to approach meetings with clarity and confidence.

What Are T TES Pre Conference Questions?

T-TESS pre conference questions are a set of guiding prompts used prior to teacher evaluation meetings, designed to encourage reflection and dialogue between teachers and evaluators. The Texas Teacher Evaluation and Support System is a research-based framework for continuous improvement, focusing on areas such as planning, instruction, learning environment, and professional practices. Pre conference questions serve as a foundation for these conversations, helping teachers articulate their goals, challenges, and instructional approaches before formal observation or assessment.

These questions are typically shared ahead of time, allowing educators to prepare thoughtful responses. This preparation not only streamlines the evaluation process but also fosters a collaborative atmosphere where teachers feel supported rather than judged.

Why Are Pre Conference Questions Important?

Pre conference questions are more than just administrative formalities—they are vital tools that promote meaningful dialogue and professional growth. When teachers engage with these questions, they gain the opportunity to reflect on their teaching practices, identify areas for improvement, and set actionable goals.

Some key benefits of addressing T TES pre conference questions include:

- **Enhanced Self-Reflection:** Teachers think critically about their instructional methods and classroom management strategies.
- **Clear Communication:** Facilitates open conversations between teachers and evaluators, reducing misunderstandings.
- **Targeted Feedback:** Helps evaluators provide specific, relevant feedback aligned with teacher goals.

- **Professional Development:** Encourages teachers to plan for continuous learning and skill enhancement.

By thoughtfully considering these questions, educators can demonstrate their commitment to student success and professional excellence.

Common T TES Pre Conference Questions and How to Approach Them

While the exact pre conference questions may vary by district or evaluator, there are common themes that typically emerge. Below are some frequently asked questions along with tips on how to approach them effectively.

1. What are your instructional goals for this observation period?

This question invites teachers to outline their specific teaching objectives. When answering, consider both academic and developmental goals for your students. Be clear and realistic, explaining how these goals align with curriculum standards and student needs.

2. How do you plan to engage students during instruction?

Engagement is a critical component of effective teaching. Describe strategies you use to motivate learners, differentiate instruction, and foster active participation. Mention any technology tools, collaborative activities, or hands-on learning experiences you incorporate.

3. What challenges do you anticipate in this lesson, and how will you address them?

Acknowledging potential hurdles shows preparedness and adaptability. Discuss any anticipated difficulties, such as diverse learning styles or behavioral issues, and explain your plans to overcome these challenges through interventions or scaffolding.

4. How do you assess student understanding throughout the lesson?

Assessment is key to monitoring progress. Share the formative or summative assessments you use,

such as quizzes, observations, or student reflections. Highlight how you use assessment data to inform instruction and provide feedback.

5. In what ways do you collaborate with colleagues or support staff?

Collaboration enhances teaching effectiveness. Describe partnerships with other teachers, special education staff, or counselors that support student learning. Emphasize teamwork and shared responsibility for student outcomes.

Tips for Preparing Your Responses to T TES Pre Conference Questions

Preparation is crucial when responding to pre conference questions. Here are some practical tips to help you get ready:

- **Reflect Honestly:** Take time to evaluate your teaching practices candidly. Identify strengths and areas for growth.
- **Use Specific Examples:** Ground your answers in real classroom experiences to provide clarity and credibility.
- **Align with Standards:** Reference relevant state standards or district goals to demonstrate alignment with broader educational objectives.
- **Stay Positive:** Frame challenges as opportunities for improvement rather than setbacks.
- **Practice Speaking:** Rehearse your responses to gain confidence and ensure clear communication during the conference.

Being well-prepared not only eases anxiety but also ensures that the pre conference discussion is meaningful and focused.

How T TES Pre Conference Questions Impact Professional Growth

The T-TESS process, including pre conference questions, is designed to be a growth-oriented system. When teachers actively engage with these questions, they take ownership of their professional development. This proactive approach can lead to several positive outcomes:

- **Improved Instructional Practices:** Reflecting on goals and strategies encourages experimentation with new teaching methods.
- **Enhanced Student Learning:** Tailoring instruction based on reflection and feedback supports better student outcomes.
- **Stronger Teacher-Evaluator Relationships:** Open communication builds trust and collaboration.
- **Career Advancement:** Demonstrating commitment to growth can open up leadership opportunities and recognition.

Ultimately, pre conference questions serve as a catalyst for ongoing improvement, helping educators evolve in their roles.

Integrating Technology and Data in Your Pre Conference Preparation

Modern educators have a wealth of tools at their disposal to support their responses to T TES pre conference questions. Incorporating technology and data-driven insights can enrich your preparation and demonstrate a forward-thinking approach.

Using Student Data Effectively

Bring concrete evidence of student progress to the conversation. This might include assessment results, attendance records, or behavior logs. Highlight how you analyze this data to tailor instruction and address individual needs.

Leveraging Educational Technology

Mentioning the digital tools you use—such as learning management systems, interactive apps, or assessment platforms—can showcase your adaptability and commitment to engaging students in diverse ways. Explain how technology enhances your instructional goals and student participation.

Understanding the Role of Pre Conference Questions in Special Education Settings

While T-TESS primarily focuses on general education teachers, the principles behind pre conference questions are equally valuable in special education contexts. Special educators and related service providers can benefit from tailored pre conference prompts that address individualized education

plans (IEPs), accommodations, and specialized instructional techniques.

For example, pre conference questions for special education might include:

- How do you modify instruction to meet diverse learner needs?
- What strategies do you use to monitor progress toward IEP goals?
- How do you collaborate with families and multidisciplinary teams?

By addressing these questions, special educators can better prepare for evaluation meetings that focus on the unique demands of their roles, ensuring that student support remains at the forefront.

Final Thoughts on Navigating T TES Pre Conference Questions

Engaging with T TES pre conference questions thoughtfully transforms what might seem like a routine step into a powerful opportunity for growth and connection. Rather than viewing these questions as a checklist, embracing them as a chance to reflect, plan, and communicate makes the evaluation process more meaningful.

Remember that the ultimate goal is to enhance teaching and learning experiences. By preparing well, being open to feedback, and continuously seeking to improve, educators can navigate pre conference meetings with confidence and purpose—setting the stage for successful outcomes for themselves and their students.

Frequently Asked Questions

What is the purpose of 'T Tess' pre-conference questions?

'T Tess' pre-conference questions are designed to guide teachers in reflecting on their instructional practices and student learning before a formal observation or conference.

How can teachers prepare for a 'T Tess' pre-conference?

Teachers can prepare by reviewing their lesson plans, student data, and reflecting on their instructional strategies related to the specific domain being observed.

What types of questions are typically included in 'T Tess' pre-conference forms?

Questions often focus on lesson objectives, student engagement, assessment methods,

differentiation strategies, and classroom management.

How do 'T Tess' pre-conference questions benefit instructional improvement?

They encourage self-reflection, help identify areas for growth, and facilitate constructive dialogue between teachers and evaluators.

Are 'T Tess' pre-conference questions standardized or customizable?

'T Tess' pre-conference questions can be both standardized and customizable, allowing districts or schools to tailor them to specific teaching contexts and goals.

When should teachers complete 'T Tess' pre-conference questions?

Teachers typically complete these questions prior to the scheduled observation or evaluation conference to provide insight into their teaching approach.

Can 'T Tess' pre-conference questions impact teacher evaluations?

Yes, responses to pre-conference questions can inform evaluators' understanding and contribute to a more comprehensive and fair assessment.

What are some examples of common 'T Tess' pre-conference questions?

Examples include: 'What are the learning objectives for this lesson?', 'How will you engage students?', and 'What strategies will you use to assess student understanding?'

How can teachers use feedback from 'T Tess' pre-conference discussions?

Teachers can use feedback to refine their instructional practices, address identified challenges, and enhance student learning outcomes.

Additional Resources

T TESS Pre Conference Questions: A Critical Examination for Educators and Evaluators

t tess pre conference questions serve as the foundational elements in the Texas Teacher Evaluation and Support System (T-TESS) framework, guiding meaningful dialogue between educators and evaluators before formal observations occur. These questions are not merely

procedural checklists; they are instrumental in establishing a reflective and collaborative environment that promotes professional growth and instructional effectiveness. As school districts across Texas continue to adopt and refine T-TESS, understanding the nuances and strategic use of pre-conference questions has become increasingly important for both teachers and administrators.

Understanding the Role of T TESS Pre Conference Questions

The T-TESS evaluation model emphasizes continuous improvement through a cycle of goal setting, observation, feedback, and reflection. Pre-conference questions appear at the start of this cycle, providing a structured opportunity for teachers to articulate their instructional plans, goals, and anticipated challenges. This preparatory dialogue enables evaluators to tailor their observations and feedback more effectively, ensuring alignment with the teacher's objectives and classroom context.

Unlike traditional evaluation models that rely heavily on summative assessments, T-TESS encourages formative conversations that foster mutual understanding. The pre-conference questions are carefully crafted to elicit detailed responses about lesson design, student engagement strategies, and assessment methods. As a result, these questions help create a shared framework for what successful instruction looks like in a particular classroom setting.

Key Components of T TESS Pre Conference Questions

The pre-conference questions typically cover several domains aligned with the T-TESS rubric, including Planning, Instruction, and Learning Environment. Common areas addressed by the questions include:

- **Lesson Objectives and Alignment:** What are the learning goals for the lesson, and how do they align with state standards and student needs?
- **Instructional Strategies:** Which teaching methods will be employed to engage students and differentiate instruction?
- **Assessment and Feedback:** How will student understanding be measured during and after the lesson?
- **Classroom Environment:** What strategies are in place to manage behavior and create a supportive learning atmosphere?

By addressing these domains, the pre-conference questions encourage teachers to think critically about their instructional design and anticipate areas where support or adjustments may be needed.

Analytical Perspectives on the Effectiveness of Pre Conference Questions

While the T-TESS pre-conference questions are designed with clear objectives, their practical effectiveness depends heavily on how they are implemented and perceived. Research and anecdotal evidence suggest several factors that influence the impact of these questions on the evaluation process.

Enhancing Teacher Reflection and Ownership

One of the most significant benefits of using pre-conference questions is their capacity to promote teacher self-reflection. Educators who engage thoughtfully with these prompts often develop a deeper understanding of their instructional choices and student needs. This reflective practice shifts the evaluation from a top-down judgment to a collaborative dialogue, fostering teacher ownership of professional growth.

However, the degree of reflection varies widely. Some teachers may provide superficial answers aimed at satisfying procedural requirements rather than engaging in authentic self-assessment. This disparity highlights the need for ongoing training and support to help educators and evaluators maximize the potential of pre-conference discussions.

Improving Targeted Observations and Feedback

Pre-conference questions also enable evaluators to focus their classroom observations on specific areas of interest or concern. By understanding the teacher's goals and strategies in advance, evaluators can collect relevant evidence and provide feedback that is both actionable and aligned with instructional priorities.

Nevertheless, the quality of feedback depends on the evaluator's skill set and willingness to engage deeply with the teacher's responses. Without a genuine commitment to the process, pre-conference questions risk becoming a perfunctory step rather than a tool for meaningful evaluation.

Challenges and Limitations

Despite their strengths, T-TESS pre-conference questions face some notable challenges:

- **Time Constraints:** Scheduling comprehensive pre-conferences can be difficult amid busy school calendars, leading to rushed or omitted discussions.
- **Standardization vs. Individualization:** The standardized nature of the questions may not fully capture unique classroom contexts or innovative teaching practices.
- **Evaluator Bias:** Preconceived notions or limited training can influence how evaluators

interpret teachers' responses, potentially skewing observations and ratings.

Addressing these issues requires systemic solutions, such as providing professional development on effective conferencing techniques and allowing flexibility in question customization.

Best Practices for Maximizing the Impact of T TESS Pre Conference Questions

To harness the full potential of pre-conference questions within the T-TESS framework, educators and administrators can adopt several best practices:

For Teachers

1. **Prepare Thoroughly:** Reflect deeply on the lesson's goals, strategies, and assessment methods before the pre-conference to provide detailed, honest responses.
2. **Be Open and Collaborative:** View the pre-conference as an opportunity for growth rather than merely an evaluative hurdle.
3. **Use Evidence:** Reference data from prior lessons or student work to make a compelling case for instructional choices.

For Evaluators

1. **Engage Actively:** Listen attentively to teachers' responses and ask clarifying questions to deepen understanding.
2. **Align Observations:** Use the insights gained to focus observations on agreed-upon goals and challenges.
3. **Provide Constructive Feedback:** Offer specific, actionable suggestions that build on the teacher's strengths and address areas for improvement.

The Broader Implications of T TESS Pre Conference Questions

In the evolving landscape of teacher evaluations, T-TESS pre-conference questions represent a shift toward a more nuanced, supportive approach. By prioritizing dialogue and reflection, the system acknowledges the complexity of teaching and the importance of context-sensitive evaluations. This approach aligns with broader educational trends emphasizing formative assessment and professional learning communities.

Furthermore, districts that successfully implement these pre-conference protocols often report enhanced teacher morale and improved instructional quality. These outcomes suggest that when used effectively, pre-conference questions contribute not only to individual teacher development but also to school-wide culture change.

As educational stakeholders continue to seek balanced evaluation systems, the role of pre-conference questions in fostering trust, transparency, and professional dialogue will likely grow in prominence. Future research and field applications may further refine these tools, tailoring them to diverse educational settings and advancing the goal of meaningful, equitable teacher assessments.

T Tess Pre Conference Questions

t tess pre conference questions: The BERA-Sage Handbook of Research-Informed Education Practice and Policy Dominic Wyse, Vivienne Baumfield, Nicole Mockler, Martin Reardon, 2025-05-31 This 2-VOL Handbook focuses on how we assess the effectiveness of education, on the basis of our understanding of the ways in which research informs education practice and education policy. Two important dimensions frame this focus: values and effectiveness.

t tess pre conference questions: CTE-STEM 2022 conference proceedings Marcus Specht, Xiaoling Zhang, Christian Glahn, Nardie Fanchamps, 2022-08-15 The 6th APSCE International Conference on Computational Thinking and STEM Education 2022 (CTE-STEM 2022) is organized by the Asia-Pacific Society for Computers in Education (APSCE) and hosted by the Leiden-Delft-Erasmus Centre for Education and Learning (LDE-CEL). CTE-STEM 2022 is hosted for the first time in Europe by the Delft University of Technology (TU Delft), Delft, the Netherlands. This conference continues from the success of the previous four international Computational Thinking conferences organized by the National Institute of Education and Nanyang Technological University (NIE/NTU). This conference invites CT as well as STEM researchers and practitioners to share their findings, processes, and outcomes in the context of computing education or computational thinking.

t tess pre conference questions: Proceedings of the International Conference on Advancing and Redesigning Education 2023 Mohd Fakhizan bin Romlie, Siti Haryani Shaikh Ali, Zolman Bin Hari, Meng Chew Leow, 2024-07-13 This book is a compilation of conference papers presented at the International Conference on Advancing and Redesigning Education 2023 (ICARE'23). It covers four main topics, including: Technology Enhanced Learning, Innovative Curriculum and Program Offering, Learning Beyond Classroom, and Digital Campus. This book presents the recent innovations and the authors' practical experiences in teaching and learning, and helps educational practitioners to enhance their teaching and learning.

t tess pre conference questions: Proceedings of the Twenty-fourth Annual Conference of the Cognitive Science Society Wayne D. Gray, Christian D. Schunn, 2019-04-24 This volume

features the complete text of the material presented at the Twenty-Fourth Annual Conference of the Cognitive Science Society. As in previous years, the symposium included an interesting mixture of papers on many topics from researchers with diverse backgrounds and different goals, presenting a multifaceted view of cognitive science. The volume includes all papers, posters, and summaries of symposia presented at this leading conference that brings cognitive scientists together. The 2002 meeting dealt with issues of representing and modeling cognitive processes as they appeal to scholars in all subdisciplines that comprise cognitive science: psychology, computer science, neuroscience, linguistics, and philosophy.

t tess pre conference questions: Global Practices of Language Teaching: Proceedings of the 2008 International Online Language Conference (IOLC 2008) Azadeh Shafaei, 2008-12-30 The first International Online Language Conference was successfully held in September 2008. This event invited professors, Masters and Ph.D. students, and academicians from around the world to submit papers in areas related to the conference theme. The event was organized by International Online Knowledge Service Provider (IOKSP). The main conference objectives were as follows: to provide a platform for language educators, academicians, and researchers from diverse cultural backgrounds to exchange ideas and the best practices for effective language teaching and learning; to promote better understanding of cultural diversity in language learning; to encourage language educators to be involved in the research process in order to achieve comprehensive excellence; and to produce a collection of scholarly papers.

t tess pre conference questions: CONVR 2023 - Proceedings of the 23rd International Conference on Construction Applications of Virtual Reality Pietro Capone, Vito Getuli , Farzad Pour Rahimian, Nashwan Dawood , Alessandro Bruttini, Tommaso Sorbi, 2023 Within the overarching theme of “Managing the Digital Transformation of Construction Industry” the 23rd International Conference on Construction Applications of Virtual Reality (CONVR 2023) presented 123 high-quality contributions on the topics of: Virtual and Augmented Reality (VR/AR), Building Information Modeling (BIM), Simulation and Automation, Computer Vision, Data Science, Artificial Intelligence, Linked Data, Semantic Web, Blockchain, Digital Twins, Health & Safety and Construction site management, Green buildings, Occupant-centric design and operation, Internet of Everything. The editors trust that this publication can stimulate and inspire academics, scholars and industry experts in the field, driving innovation, growth and global collaboration among researchers and stakeholders.

t tess pre conference questions: Advances in Web Based Learning - ICWL 2008 Frederick Li, Jianmin Zhao, Rynson Lau, Qing Li, Denis McLeod, 2008-08-19 This year, we received about 170 submissions to ICWL 2008. There were a total of 52 full papers, representing an acceptance rate of about 30%, plus one invited paper accepted for inclusion in this LNCS proceedings. The authors of these accepted papers came from many different countries. We would like to thank all the reviewers for spending their precious time reviewing the papers and for providing valuable comments that aided significantly in the paper selection process. Authors of the best papers presented in this conference will be invited to submit extended versions of their papers for possible publication in a special issue of IEEE Internet Computing. This was the second time that the ICWL conference was organized in China. It was particularly special this year to hold ICWL 2008 in China, as the Beijing 2008 Olympic Games were co-located in the same country during the conference period. We would like to especially thank our Organization Co-chair, Lanfang Miao, for spending an enormous amount of effort in coordinating the local arrangements. In fact, we would like to thank the entire conference Organizing Committee for their hard work in putting together the conference. In particular, we would like to express our appreciation to our Registration Chairs, Jiying (Jean) Wang and Lanfang Miao, and Treasurer Howard Leung for their tremendous efforts in communicating with the authors regarding registration matters and maintaining the registration lists up-to-date.

t tess pre conference questions: Innovative Technologies and Learning Yu-Ping Cheng, Margus Pedaste, Emanuele Bardone, Yueh-Min Huang, 2024-07-20 The two-volume set LNCS 14785 and 14786 constitutes the refereed post-conference proceedings of the 7th International Conference

on Innovative Technologies and Learning, ICITL 2024, Tartu, Estonia, during August 14 -16, 2024. The 60 full papers included in this book were carefully reviewed and selected from 131 submissions. They were organized in topical sections as follows: Part One : Artificial Intelligence in Education; Computational Thinking in Education; Design and Framework of Learning Systems and Pedagogies to Innovative Technologies and Learning. Part Two : STEM/STEAM Education; VR/AR/MR/XR in Education; and Application and Design of Generative Artificial Intelligence in Education.

t tess pre conference questions: Advances in Artificial Intelligence - IBERAMIA-SBIA 2006 Jaime Simao Sichman, Helder Coelho, Solange Oliveira Rezende, 2006-10-11 This book constitutes the refereed proceedings of the 2nd International Joint Conference of the 10th Ibero-American Conference on Artificial Intelligence, IBERAMIA 2006, and the 18th Brazilian Artificial Intelligence Symposium, SBIA 2006. The book presents 62 revised full papers together with 4 invited lectures. Topical sections include AI in education and intelligent tutoring systems, autonomous agents and multiagent systems, computer vision and pattern recognition, evolutionary computation and artificial life, and more.

t tess pre conference questions: Smart Industry & Smart Education Michael E. Auer, Reinhard Langmann, 2018-07-24 The REV conference aims to discuss the fundamentals, applications and experiences in remote engineering, virtual instrumentation and related new technologies, as well as new concepts for education on these topics, including emerging technologies in learning, MOOCs & MOOLs, Open Resources, and STEM pre-university education. In the last 10 years, remote solutions based on Internet technology have been increasingly deployed in numerous areas of research, science, industry, medicine and education. With the new focus on cyber-physical systems, Industry 4.0, Internet of Things and the digital transformation in industry, economy and education, the core topics of the REV conference have become indispensable elements of a future digitized society. REV 2018, which was held at the University of Applied Sciences in Duesseldorf from 21-23 March 2018, addressed these topics as well as state-of-the-art and future trends.

t tess pre conference questions: Proceedings of the 18th European Conference on Games Based Learning Kristine Kilsa, Rajiv Vaid Basaiawmoit, 2024

t tess pre conference questions: *Establishing a Yearlong Teacher Residency* Christopher J. Sloan, Sarah Beal, 2024-09-23 This book outlines a model for a teacher residency and how to establish a yearlong residency within an educator preparation program. It describes the four-year experiences of stakeholders at Tarleton State University but can be used as a step-by-step guide, in whole or in part, to transforming teacher preparation at any university. After a brief description of the “traditional” clinical model and why a university may look to make a change, the book offers a roadmap for the entire process of moving to a residency model. The chapters provide detailed explanations of how to build mutually beneficial partnerships with school districts, utilize co-teaching models, and create revised roles for cooperating teachers, teacher-residents, university and district leaders, and site coordinators. Contributing authors also cover change processes (successes and failures), funding models, scaling, sustainability, data collection, and evidence of effectiveness. Based on Tarleton’s recognition as one of the fastest-scaling residency programs and most complete transformations to date, the tools presented offer any teacher prep program the opportunity to make the leap to a residency model. This resource is also ideal for school district leaders seeking guidance on building or enhancing existing partnerships with universities, and for in-service teachers interested in discovering new co-teaching models.

t tess pre conference questions: *Proceedings of MAC 2018 in Prague* group of authors, 2018-05-24 The conference proceedings - International Academic Conference in Prague 2018 (May)

t tess pre conference questions: Innovative Technologies and Learning Lisbet Rønningsbakk, Ting-Ting Wu, Frode Eika Sandnes, Yueh-Min Huang, 2019-11-25 This book constitutes the refereed proceedings of the Second International Conference on Innovative Technologies and Learning, ICITL 2019, held in Tromsø, Norway, in December 2019. The 85 full papers presented together with 4 short papers were carefully reviewed and selected from 189 submissions. The papers are organized in the following topical sections: application and design of

innovative learning software; artificial intelligence and data mining in education; augmented and virtual reality in education; computational thinking in education; design and framework of learning systems; educational data analytics techniques and adaptive learning applications; evaluation, assessment and test; innovative learning in education; mobile learning; new perspectives in education; online course and web-based environment; pedagogies to innovative technologies; social media learning; technologies enhanced language learning; and technology and engineering education.

t tess pre conference questions: *Advances in Human Factors and Ergonomics 2012- 14 Volume Set* Gavriel Salvendy, Waldemar Karwowski, 2012-08-06 With contributions from an international group of authors with diverse backgrounds, this set comprises all fourteen volumes of the proceedings of the 4th AHFE Conference 21-25 July 2012. The set presents the latest research on current issues in Human Factors and Ergonomics. It draws from an international panel that examines cross-cultural differences, design issues, usability, road and rail transportation, aviation, modeling and simulation, and healthcare.

t tess pre conference questions: 2008 Physics Education Research Conference Charles Henderson, Mel Sabella, Leon Hsu, 2008-11-21 The 2008 Physics Education Research Conference brought together researchers studying a wide variety of topics in physics education. The conference theme was "Physics Education Research with Diverse Student Populations". Researchers specializing in diversity issues were invited to help establish a dialog and spur discussion about how the results from this work can inform the physics education research community. The organizers encouraged physics education researchers who are using research-based instructional materials with non-traditional students at either the pre-college level or the college level to share their experiences as instructors and researchers in these classes.

t tess pre conference questions: *Persuasive Technology* Raian Ali, Birgit Lugrin, Fred Charles, 2021-06-22 This book constitutes the refereed post-conference proceedings of the 16th International Conference on Persuasive Technology, PERSUASIVE 2021, held as a virtual event, in April 2021. The 17 full papers presented in this book together with 8 short papers were carefully reviewed and selected from 67 submissions. The papers are grouped in topical sections as follows: persuasive affective technology; digital marketing, ecommerce, etourism and smart ecosystems; and persuasion and education.

t tess pre conference questions: *Intelligent Tutoring Systems* Andre Coy, Yugo Hayashi, Maiga Chang, 2019-05-31 This book constitutes the proceedings of the 15th International Conference on Intelligent Tutoring Systems, ITS 2019, held in Kingston, Jamaica, in June 2019. The 14 full papers and 13 short papers presented in this volume were carefully reviewed and selected from 42 submissions. In the back matter of the volume 4 poster papers are included. They deal with the use of advanced computer technologies and interdisciplinary research for enabling, supporting, and enhancing human learning.
