it ends with us ebook free: *It Ends with Us* Colleen Hoover, 2020-07-28 In this “brave and heartbreaking novel that digs its claws into you and doesn’t let go, long after you’ve finished it” (Anna Todd, New York Times bestselling author) from the #1 New York Times bestselling author of *All Your Perfects*, a workaholic with a too-good-to-be-true romance can’t stop thinking about her first love. Lily hasn’t always had it easy, but that’s never stopped her from working hard for the life she wants. She’s come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily’s life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He’s also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn’t hurt. Lily can’t get him out of her head. But Ryle’s complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his “no dating” rule, she can’t help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is “a glorious and touching read, a forever keeper. The kind of book that gets handed down” (USA TODAY).

it ends with us ebook free: *Story Virality* Monica Leonelle, 2021-05-25 You know how to market your book... but is the book itself making it harder to gain traction? This is a question that all writers and authors struggle with. We aren’t always great at evaluating our own work, whether we are new to publishing or on our twentieth book. And the answers we get from other authors is usually to: Write to a more popular trend End the series faster Hire a developmental editor Try a new marketing tactic Change the cover or blurb Write the next book But here’s the thing—your back catalog is not dead weight. You worked hard on your book or series and there’s no reason you can’t get it selling better... Without having to write to a trend you’re not passionate about Without having to add in tropes that don’t make sense Without having to hire another editor (editors can’t fix a marketing issue within your story) Without having to change your writing style Without having to do what everyone else says is “the only thing that’s selling right now” *Editing For Marketability* is new and different. It’s an advanced approach to writing-to-market that breaks down why books sell based on persuasive writing techniques found across storytelling, branding, psychology, public relations, and marketing. And yes, it applies readily to novels—I share the how in the book! When you practice marketability editing, you take your story through the Book Virality Stack, a framework with six virality factors that helps you see where your book has marketing hooks and where it doesn’t. I teach you how to improve your marketability under each factor so you get to choose. I also teach you how you can better emphasize the various hooks you already have in your book if you’ve already published and don’t have time for a full edit. You can use this framework to: Make sure your next release is written to market Fix an underperforming first-in-series or other reader magnet (so your series starts selling better) Build a breakout book from the ground up (to bring visibility to your entire catalog) You became a creative to express yourself and share your stories. *Editing For Marketability* helps you connect to a larger audience without sacrificing your characters, plot, or autonomy over your work.
