

phd in leadership psychology

PhD in Leadership Psychology: Unlocking the Science of Effective Leadership

phd in leadership psychology is an intriguing and highly specialized field of study that merges the insights of psychology with the practical demands of leadership. For those passionate about understanding what makes leaders effective, how they influence others, and how leadership styles can be optimized, this advanced degree offers a unique blend of theory, research, and application. It's a journey into the human mind, organizational behavior, and the subtle dynamics that drive success in teams, corporations, and communities alike.

What is a PhD in Leadership Psychology?

At its core, a PhD in leadership psychology focuses on studying leadership through the lens of psychological principles. Unlike traditional leadership degrees that may emphasize management techniques or business strategies, this doctorate dives deeper into the cognitive, emotional, and social factors that shape leadership behavior. Students explore topics such as motivation, decision-making, emotional intelligence, personality traits, and group dynamics—all critical elements that influence how leaders perform and how followers respond.

This degree prepares scholars and practitioners to contribute original research to the field, develop new leadership models, and apply psychological theories in organizational contexts. Graduates often become university professors, organizational consultants, executive coaches, or researchers, driving innovation in leadership development programs and organizational psychology.

Why Pursue a PhD in Leadership Psychology?

If you've ever wondered why some leaders inspire loyalty and high performance while others struggle to connect, a PhD in leadership psychology can provide answers. Here are some compelling reasons to consider this path:

1. Deepen Your Understanding of Human Behavior

Leadership is fundamentally about influencing people. This program equips you with sophisticated tools to analyze behavior, cognition, and emotion, which are essential to understanding leadership effectiveness. You'll study psychological theories ranging from social psychology to developmental psychology, all applied to leadership contexts.

2. Contribute to Leadership Research

With a doctoral degree, you can conduct groundbreaking research that shapes the future of leadership theory. Whether it's exploring transformational leadership, authentic leadership, or the impact of cultural factors on leadership styles, your work can inform best practices across industries.

3. Enhance Your Career Opportunities

A PhD opens doors to high-level roles in academia, consulting, human resources, and organizational development. Many organizations value the advanced analytical skills and deep psychological insight that come with this degree, especially when addressing complex challenges like change management and talent development.

Key Areas of Study in Leadership Psychology

While programs vary, most PhD in leadership psychology curricula cover several essential topics designed to build a robust understanding of leadership from a psychological perspective.

Psychological Theories of Leadership

Students explore classical and contemporary theories such as trait theory, behavioral theory, contingency models, and transformational leadership. Understanding these frameworks helps to dissect what differentiates effective leaders from less effective ones.

Emotional Intelligence and Leadership

Emotional intelligence (EI) is crucial for leaders to manage their own emotions and navigate interpersonal relationships. Coursework often includes how EI influences decision-making, conflict resolution, and team motivation.

Organizational Behavior and Culture

Leadership doesn't happen in a vacuum. Understanding organizational culture and group dynamics is vital. This area covers how leaders shape, and are shaped by, the environments they operate within.

Research Methods and Data Analysis

A significant portion of a PhD involves mastering research methodologies, from qualitative interviews and case studies to quantitative statistical analysis. This training is essential for conducting rigorous studies and contributing valid findings to the field.

What Does the PhD Journey Look Like?

Pursuing a PhD in leadership psychology is a rigorous but rewarding endeavor. Typically, the program lasts between 4 to 6 years, depending on the university and whether you study full-time or part-time.

Coursework and Seminars

The initial phase involves intensive coursework covering theories, research methods, and electives tailored to your interests, such as cross-cultural leadership or ethical leadership.

Comprehensive Exams

After coursework, students usually take comprehensive exams to demonstrate mastery of core knowledge areas before moving on to their dissertation research.

Dissertation Research

The heart of the PhD is the dissertation — an original research project that contributes new knowledge to the field of leadership psychology. This phase demands deep focus, creativity, and perseverance as you design studies, collect and analyze data, and present your findings.

Teaching and Professional Development

Many programs encourage or require teaching assistantships, giving students valuable experience in academia. Additionally, attending conferences and publishing research help build a professional network and reputation.

Career Paths with a PhD in Leadership

Psychology

The versatility of a PhD in leadership psychology means graduates can pursue diverse careers that leverage their expertise in human behavior and leadership science.

Academic and Research Roles

Becoming a professor or researcher allows you to continue investigating leadership theories, mentor future leaders, and shape curricula that influence how leadership is taught worldwide.

Organizational Consultant

Many companies seek experts who can assess leadership effectiveness, diagnose organizational issues, and implement development programs. Consultants use psychological principles to enhance leadership competencies and foster healthier workplace cultures.

Executive Coaching

Coaching senior leaders and executives requires a deep understanding of psychology to tailor strategies that improve performance, resilience, and interpersonal skills.

Human Resources and Talent Development

PhD holders often lead initiatives around leadership training, succession planning, and employee engagement, ensuring organizations cultivate and retain top leadership talent.

Tips for Success in a PhD in Leadership Psychology Program

Embarking on a doctoral journey is challenging but manageable with the right approach. Here are some practical tips:

- **Choose the Right Program:** Look for universities with strong psychology and leadership faculties, access to research resources, and opportunities for interdisciplinary study.
- **Develop a Clear Research Focus:** Early on, identify your passion within leadership

psychology, whether it's transformational leadership, diversity and inclusion, or decision-making processes.

- **Engage with Faculty and Peers:** Building relationships with advisors and fellow students can provide support, feedback, and collaboration opportunities throughout your studies.
- **Stay Current with Research:** Regularly read journals like *The Leadership Quarterly* or *Journal of Applied Psychology* to stay abreast of new theories and methodologies.
- **Balance Study and Well-being:** Doctoral studies can be intense; prioritize self-care, maintain hobbies, and seek counseling if needed to sustain long-term motivation.

The Future of Leadership Psychology

As organizations face increasingly complex and dynamic environments, the relevance of leadership psychology continues to grow. Emerging trends such as virtual leadership, neuroleadership, and the emphasis on diversity and inclusion require fresh psychological insights. A PhD in leadership psychology positions scholars at the forefront of these developments, enabling them to influence how leadership adapts and thrives in the 21st century.

Whether you want to unravel the mysteries of human motivation, improve organizational performance, or cultivate the next generation of leaders, a doctorate in leadership psychology offers a profound and impactful path to making a difference in both theory and practice.

Frequently Asked Questions

What is a PhD in Leadership Psychology?

A PhD in Leadership Psychology is a doctoral degree focused on studying the psychological principles and theories behind effective leadership, including how leaders influence, motivate, and manage individuals and groups.

What career opportunities are available with a PhD in Leadership Psychology?

Graduates with a PhD in Leadership Psychology can pursue careers in academia, organizational consulting, executive coaching, human resources leadership, research, and leadership development within various industries.

What are the typical admission requirements for a PhD program in Leadership Psychology?

Typical admission requirements include a relevant master's degree, a strong academic record, letters of recommendation, a statement of purpose, and sometimes GRE scores and relevant research experience.

How does Leadership Psychology differ from general Psychology in a PhD program?

Leadership Psychology specifically focuses on understanding leadership behaviors, decision-making, and organizational dynamics, whereas general Psychology covers a broader range of mental processes and human behavior.

What research topics are commonly explored in a PhD in Leadership Psychology?

Common research topics include transformational leadership, emotional intelligence in leaders, team dynamics, leadership development strategies, organizational culture, and the impact of leadership styles on employee performance.

Additional Resources

PhD in Leadership Psychology: Exploring the Intersection of Mind and Management

phd in leadership psychology represents a specialized academic pursuit that delves into understanding the psychological principles underpinning effective leadership. This advanced degree equips scholars and practitioners with a sophisticated grasp of human behavior, decision-making, motivation, and group dynamics within organizational contexts. As organizations increasingly recognize the critical role that psychological insight plays in leadership success, the demand for professionals trained in leadership psychology continues to rise.

The discipline of leadership psychology bridges core psychological theories with leadership models, offering a unique lens through which to analyze how leaders influence individuals and groups. A PhD in this field is designed not only to develop research expertise but also to enhance practical leadership capabilities applicable across sectors such as business, education, healthcare, and government.

Understanding the Scope of a PhD in Leadership Psychology

At its core, a PhD in leadership psychology combines two distinct yet interrelated domains: psychology and leadership studies. Students engage deeply with topics such as cognitive processes, emotional intelligence, social influence, and organizational behavior, all framed

within the context of leadership roles and challenges.

Unlike more general leadership programs, this doctoral degree emphasizes empirical research and theoretical frameworks that explain how psychological factors shape leadership effectiveness. For example, candidates might investigate how personality traits correlate with leadership styles or how stress affects decision-making in high-stakes environments.

Curriculum and Research Focus

The curriculum for a PhD in leadership psychology typically includes advanced coursework in:

- Organizational Psychology
- Leadership Theories and Models
- Research Methods and Statistical Analysis
- Motivation and Group Dynamics
- Ethics and Leadership Integrity
- Psychometrics and Assessment Tools

Research projects often revolve around topics such as transformational leadership, cross-cultural leadership psychology, resilience in leaders, and the impact of implicit biases on managerial decisions. This academic rigor prepares graduates to contribute new knowledge to the field and influence leadership practices grounded in scientific evidence.

Career Trajectories and Professional Opportunities

Graduates holding a PhD in leadership psychology are uniquely positioned to assume roles that require both psychological acumen and leadership expertise. Common career paths include:

- Organizational Development Consultant
- Executive Coach and Leadership Trainer
- Academic Researcher and University Professor

- Human Resources Strategist
- Corporate Psychologist
- Policy Advisor on Leadership and Workforce Engagement

The versatility of this degree lies in its ability to integrate psychological principles with leadership strategies, making holders valuable assets in improving organizational culture and performance. According to the U.S. Bureau of Labor Statistics, employment for psychologists, including those specializing in industrial-organizational and leadership psychology, is expected to grow by 8% from 2021 to 2031, indicating a healthy demand for such expertise.

Comparing Leadership Psychology with Related Fields

While leadership psychology overlaps with organizational psychology and business leadership programs, it is distinguished by its focus on the psychological mechanisms that drive leadership behavior specifically. For instance:

- **Organizational Psychology** broadly examines workplace behavior, including motivation, job satisfaction, and team dynamics, but may not focus solely on leadership roles.
- **Business Leadership Programs** often emphasize management skills, strategic thinking, and operational leadership without a deep dive into psychological theory.
- **Leadership Psychology** integrates these perspectives with an emphasis on cognitive, emotional, and social psychology as they relate to leadership processes.

This specialization enables a more nuanced understanding of the psychological underpinnings that can make or break leadership effectiveness in diverse settings.

Advantages and Challenges of Pursuing a PhD in Leadership Psychology

Embarking on a doctoral program in leadership psychology offers numerous benefits, yet it also presents distinct challenges that prospective students should carefully weigh.

Advantages

- **Interdisciplinary Expertise:** Graduates gain a rare blend of psychological insight and leadership acumen, enhancing their value in various professional sectors.
- **Research Opportunities:** The degree provides a platform for contributing original research that can influence leadership theories and organizational practices.
- **Career Flexibility:** With skills applicable to academia, consulting, and corporate environments, graduates enjoy diverse job prospects.
- **Impact Potential:** Understanding psychological drivers of leadership can lead to more ethical, effective, and inclusive leadership models.

Challenges

- **Length and Intensity:** Doctoral programs often require 4-6 years of rigorous study, including dissertation research.
- **Funding and Resources:** Securing financial support can be competitive, and research demands access to specialized data and tools.
- **Niche Specialization:** The specificity of leadership psychology may limit some traditional clinical or counseling psychology opportunities.
- **Balancing Theory and Practice:** Applying complex psychological theories to real-world leadership contexts can be challenging but essential for success.

Prospective candidates should consider their career goals, research interests, and commitment to scholarly inquiry when choosing this path.

The Future of Leadership Psychology in an Evolving Workplace

In an era marked by rapid technological change, globalization, and shifting workforce demographics, leadership psychology is increasingly relevant. The integration of artificial intelligence, remote work environments, and heightened awareness of diversity and inclusion demands leaders who understand psychological dynamics deeply.

Emerging research in leadership psychology explores how virtual teams function, the psychological effects of digital communication on leadership efficacy, and the role of emotional intelligence in managing hybrid workforces. PhD holders in this field are at the forefront of developing adaptive leadership models suited to these transformations.

Moreover, mental health considerations have become central to leadership development. Scholars and practitioners trained in leadership psychology contribute to designing programs that foster resilience, reduce burnout, and promote well-being among leaders and their teams.

The interdisciplinary nature of a PhD in leadership psychology positions graduates to influence policies, training frameworks, and organizational cultures that prioritize both performance and psychological health.

In summary, the pursuit of a PhD in leadership psychology offers a compelling avenue for those interested in the science of leadership through the lens of human behavior. As organizations seek leaders equipped to navigate complexity with empathy and insight, expertise in leadership psychology stands as a critical asset shaping the future of management and organizational success.

Phd In Leadership Psychology

phd in leadership psychology: Handbook of International and Cross-Cultural Leadership Research Processes Yulia Tolstikov-Mast, Franziska Bieri, Jennie L. Walker, 2021-11-29 An invaluable contribution to the area of leadership studies, the Handbook of International and Cross-Cultural Leadership Research Processes: Perspectives, Practice, Instruction brings together renowned authors with diverse cultural, academic, and practitioner backgrounds to provide a comprehensive overview and analysis of all stages of the research process. The handbook centers around authors' international research reflections and experiences, with chapters that reflect and analyze various research experiences in order to help readers learn about the integrity of each stage of the international leadership research process with examples and discussions. Part I introduces philosophical traditions of the leadership field and discusses how established leadership and followership theories and approaches sometimes fail to capture leadership realities of different cultures and societies. Part II focuses on methodological challenges and opportunities. Scholars share insights on their research practices in different stages of international and cross-cultural studies. Part III is forward-looking in preparing readers to respond to complex realities of the leadership field: teaching, learning, publishing, and applying international and cross-cultural leadership research standards with integrity. The unifying thread amongst all the chapters is a shared intent to build knowledge of diverse and evolving leadership practices and phenomena across cultures and societies. The handbook is an excellent resource for a broad audience including scholars across disciplines and fields, such as psychology, management, history, cognitive science, economics, anthropology, sociology, and medicine, as well as educators, consultants, and graduate and doctoral students who are interested in understanding authentic leadership practices outside of the traditional Western paradigm.

phd in leadership psychology: The SAGE Encyclopedia of Industrial and Organizational Psychology Steven G. Rogelberg, 2016-09-27 The well-received first edition of the Encyclopedia of Industrial and Organizational Psychology (2007, 2 vols) established itself in the academic library market as a landmark reference that presents a thorough overview of this cross-disciplinary field for students, researchers, and professionals in the areas of psychology, business, management, and human resources. Nearly ten years later, SAGE presents a thorough revision that both updates current entries and expands the overall coverage, adding approximately 200 new articles, expanding from two volumes to four. Examining key themes and topics from within this dynamic and expanding field of psychology, this work offers a truly cross-cultural and global perspective.

phd in leadership psychology: *Destructive Leadership and Management Hypocrisy* Selin Metin Camgöz, Özge Tayfur Ekmekci, 2021-07-08 *Destructive Leadership and Management Hypocrisy: Advances in Theory and Practice* explores detailed insights into destructive leadership, providing a deeper understanding of the implications of destructive leadership and valuable warnings and lessons to apply to your own career or organization.

phd in leadership psychology: Psychological Approaches to Pain Management, Third Edition Dennis C. Turk, Robert J. Gatchel, 2018-07-03 This authoritative handbook--now significantly revised with more than 50% new material--has introduced thousands of practitioners and students to the state of the art in psychological interventions for managing pain. Leading experts review the most effective treatment approaches for enhancing patients' coping and self-efficacy and reducing pain-related disability, including cognitive-behavioral therapy, biofeedback, clinical hypnosis, group therapy, and more. Strategies for integrating psychosocial and medical treatments for specific populations are described, with chapters on back pain, headache, cancer, and other prevalent chronic pain disorders. Attention is given to customizing intervention for individual patients, maximizing treatment adherence, and preventing overuse of opioids and other medications. • New to This Edition •Chapter on resilience, focusing on mindfulness-and acceptance-based approaches. •Chapters on managing pain with comorbid psychological disorders (posttraumatic stress disorder and substance use disorder). •Chapter on emerging uses of technology. •Even more practitioner friendly: every chapter concludes with bulleted Clinical Highlights. •Many new authors; extensively revised with over 15 years of research and clinical advances. •

phd in leadership psychology: *Peterson's Graduate Schools in the U.S. 2010* Peterson's, 2009 Shares overviews of nearly one thousand schools for a variety of disciplines, in a directory that lists educational institutions by state and field of study while sharing complementary information about tuition, enrollment, and faculties.

phd in leadership psychology: Qualitative Research in the Study of Leadership Karin Klenke, 2008-02-29 Discusses the use of qualitative research methods in leadership studies beginning with an examination of the paradigmatic assumptions underlying qualitative research. This book presents various qualitative methods that can be placed on a continuum ranging from purely qualitative to highly quantitative.

phd in leadership psychology: *Contemporary Management and Global Leadership for Sustainability* Kankaew, Kannapat, Chaudhary, Shilpa, Widtayakornbundit, Sarun, 2024-02-26 Modern organizations confront an array of existential challenges encompassing environmental volatility, resource scarcity, workforce recruitment woes, employee burnout, and technological disruption. These uncertainties, coupled with the call for sustainability as exemplified by the Sustainable Development Goals (SDGs), necessitate adept management and visionary leadership. Nevertheless, deciphering these intricacies proves formidable, exacerbated by societal shifts and rapid behavioral transformations. The demand for proficient management and comprehensive leadership has never been more pressing as we stand on the cusp of a transformative era. *Contemporary Management and Global Leadership for Sustainability*, emerges as a remedy for present challenges. This book delves into the core of modern management science and global leadership, offering a roadmap to navigate multifaceted issues across various sectors. Beyond theoretical insights, it bridges the gap between theory and application, equipping a diverse audience with actionable approaches for sustainable triumph. Tailored for academics, professionals in public and private spheres, and students, the book serves as a reservoir of knowledge. Touching industries from hospitality to education and exploring the fusion of religious philosophy with sustainable leadership, provides invaluable guidance. As organizations worldwide seek direction amid contemporary challenges, this book shines as a beacon, guiding the way toward resilience, innovation, and enduring triumph.

phd in leadership psychology: *Overcoming Bad Leadership in Organizations* Derek Lusk, Theodore L. Hayes, 2022 *Overcoming Bad Leadership in Organizations* brings together the foremost

experts on the dark side of leadership to offer groundbreaking insights to leaders, talent management professionals, and psychologists. The goal is to confront reality head on, to shed the idea that leadership is always good, and in this space increase our understanding of the perils of dysfunctional leadership.

phd in leadership psychology: Occupational Stress and Well-Being in Military Contexts

Peter D. Harms, Pamela L. Perrewé, 2018-08-22 This volume examines the causes and consequences of stress in the military, focussing on how stress and well-being shape the experiences of military personnel both in and out of the combat zone.

phd in leadership psychology: Peterson's Graduate Programs in the Social Sciences

2011 Peterson's, 2011-07-01 Peterson's Graduate Programs in the Social Sciences contains a wealth of information on colleges and universities that offer graduate work in Area & Cultural Studies; Communication & Media; Conflict Resolution & Mediation/Peace Studies; Criminology & Forensics; Economics; Family & Consumer Sciences; Geography; Military & Defense Studies; Political Science & International Affairs; Psychology & Counseling; Public, Regional, & Industrial Affairs; Social Sciences; and Sociology, Anthropology, & Archaeology. Institutions listed include those in the United States, Canada, and abroad that are accredited by U.S. accrediting agencies. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. Readers will find helpful links to in-depth descriptions that offer additional detailed information about a specific program or department, faculty members and their research, and much more. In addition, there are valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation, with a current list of accrediting agencies.

phd in leadership psychology: Harnessing Biodiversity Tourism for Regenerative

Conservation Management Nakpathom, Parinya, Kankaew, Kannapat, Pitchayadejanant, Krittipat, Vladimirovna, Minenkova Vera, Rotai, Evgeniia, 2025-03-13 Biodiversity tourism holds significant potential for promoting regenerative conservation management. By attracting visitors to ecologically rich and diverse natural environments, biodiversity tourism offers a unique opportunity to raise awareness, generate revenue, and incentivize the protection of endangered ecosystems. Unlike traditional tourism models, regenerative tourism emphasizes sustainable practices that restore and enhance natural habitats. Through collaborative efforts between local communities, conservationists, and the tourism industry, biodiversity tourism can create revenue from eco-tourism that supports conservation initiatives, while informed and engaged tourists become advocates for environmental preservation. Further research into innovative management strategies may ensure both the protection of biodiversity and the long-term sustainability of tourism activities. Harnessing Biodiversity Tourism for Regenerative Conservation Management explores the integration of conservation management strategies in biodiversity tourism and hospitality. It examines the impact of biodiversity tourism on ecosystems, community development, and preservation. This book covers topics such as ecotourism, geography, and waste management, and is a useful resource for biologists, environmental scientists, engineers, academicians, conservationists, and researchers.

phd in leadership psychology: Leadership after COVID-19 Satinder K. Dhiman, Joan F.

Marques, 2022-03-05 The COVID-19 pandemic has permanently changed lives around the world and no dimension of life and leadership seems to have been spared from its wrath. It has also stirred us into thinking about novel approaches to lead organizations and societies toward a shared, sustainable future. This book offers novel perspectives on leadership and change management after the COVID-19 pandemic that take us beyond striving for thriving—perspectives that are grounded in emergent theory, research and practice. It highlights sustainable leadership and change management strategies to effectively deal with unpredictable and rapidly changing situations—particularly in a world that is increasingly volatile, uncertain, complex, and ambiguous

(VUCA). This book also highlights engaging perspectives by specialists from different disciplines such as business, psychology, education, and health care. It serves as a practical guide in identifying and responding to leadership challenges and opportunities in each of the four VUCA categories of volatility, uncertainty, complexity, and ambiguity—and how they affect businesses, organizations, and societies as a whole.

phd in leadership psychology: Handbook of Strategic 360 Feedback Allan H. Church, David W. Bracken, John W. Fleenor, Dale S. Rose, 2019-04-10 This volume is the definitive work on strategic 360 feedback, an approach to performance management that is characterized by: (1) having content derived from the organization's strategy and values; (2) creating data that is sufficiently reliable and valid to be used for decision making; (3) integration with talent management and development systems; and (4) being inclusive of all candidates for assessment. Featuring 30 chapters from leading practitioners in the field, the volume is organized into four major sections: 360 for Decision Making; 360 for Development, Methodology, and Measurement; Organizational Applications; and Critical and Emerging Topics. It presents viewpoints from researchers, scientists, practitioners, and consultants on best practices in the design, implementation, and evaluation of many forms of multirater processes and technologies currently used to support talent management systems.

phd in leadership psychology: *21st Century Management: A Reference Handbook* Charles Wankel, 2008 Ordered as part of a set on ID 7574134.

phd in leadership psychology: *British Qualifications 2018* Kogan Page Editorial, 2017-12-03 Now in its 48th edition, British Qualifications 2018 is the definitive one-volume guide to every qualification on offer in the United Kingdom. With an equal focus on both academic and vocational studies, this essential guide has full details of all institutions and organizations involved in the provision of further and higher education and is an essential reference source for careers advisors, students and employers. It also includes a comprehensive and up-to-date description of the structure of further and higher education in the UK. British Qualifications 2018 has been fully updated and includes valuable information on awards provided by over 350 professional institutions and accrediting bodies, details of academic universities and colleges and a full description of the current framework of academic and vocational education. It is compiled and checked annually to ensure accuracy of information.

phd in leadership psychology: Handbook of Military Psychology Stephen V. Bowles, Paul T. Bartone, 2017-12-05 This expert compendium surveys the current state of military psychology across the branches of service at the clinical, research, consulting, and organizational levels. Its practical focus examines psychological adjustment pre- and post-deployment, commonly-encountered conditions (e.g., substance abuse), and the promotion of well-being, sleep, mindfulness, and resilience training. Coverage pays particular attention to uses of psychology in selection and assessment of service personnel in specialized positions, and training concerns for clinicians and students choosing to work with the military community. Chapters also address topics of particular salience to a socially conscious military, including PTSD, sexual harassment and assault, women's and LGBT issues, suicide prevention, and professional ethics. Among the specific chapters topics covered: · Military deployment psychology: psychologists in the forward environment. · Stress and resilience in married military couples. · Assessment and selection of high-risk operational personnel: processes, procedures, and underlying theoretical constructs. · Understanding and addressing sexual harassment and sexual assault in the US military. · Virtual reality applications for the assessment and treatment of PTSD. · Plus international perspectives on military psychology from China, Australia, India, and more. Grounding its readers in up-to-date research and practice, Military Psychology will assist health psychologists, clinical psychologists, psychiatrists, and clinical social workers in understanding and providing treatment for military populations, veterans, and their families, as well as military psychologists in leadership and consulting positions.

phd in leadership psychology: Handbook of Conflict Management Research Oluremi B. Ayoko, Neal M. Ashkanasy, Karen A. Jehn, 2014-07-31 This unique book draws together current

thoughts and research in conflict management. Specifically, it brings a wealth of knowledge from authorities in the field on emerging issues such as power in conflict, cognition and emotions in conflict, leading

phd in leadership psychology: Comprehensive Dissertation Index, 1861-1972: Psychology Xerox University Microfilms, 1973

phd in leadership psychology: The Handbook of International Psychology Merry Bullock, Michael Stevens, Danny Wedding, Amanda Clinton, 2024-11-18 This second edition of The Handbook of International Psychology chronicles the discipline of psychology as it evolves in different regions, from the perspective of those living and working in the countries they write about. This volume surveys the history, methodology, education, training, and future of psychology in more than 100 countries/territories, organized by region and continent. In this thoroughly updated and expanded edition, chapters highlight the important ways in which psychological knowledge and services are contextualized through culture, history, geography, social, and political forces. This comprehensive handbook is essential for students and teachers of psychology, as well as professionals wanting to develop their understanding of psychology around the world.

phd in leadership psychology: ECKM 2023 24th European Conference on Knowledge Management Vol 2 Alvaro Rosa, 2023-09-07 These proceedings represent the work of contributors to the 24th European Conference on Knowledge Management (ECKM 2023), hosted by Iscte - Instituto Universitário de Lisboa, Portugal on 7-8 September 2023. The Conference Chair is Prof Florinda Matos, and the Programme Chair is Prof Álvaro Rosa, both from Iscte Business School, Iscte - Instituto Universitário de Lisboa, Portugal. ECKM is now a well-established event on the academic research calendar and now in its 24th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. The opening keynote presentation is given by Professor Leif Edvinsson, on the topic of Intellectual Capital as a Missed Value. The second day of the conference will open with an address by Professor Noboru Konno from Tama Graduate School and Keio University, Japan who will talk about Society 5.0, Knowledge and Conceptual Capability, and Professor Jay Liebowitz, who will talk about Digital Transformation for the University of the Future. With an initial submission of 350 abstracts, after the double blind, peer review process there are 184 Academic research papers, 11 PhD research papers, 1 Masters Research paper, 4 Non-Academic papers and 11 work-in-progress papers published in these Conference Proceedings. These papers represent research from Australia, Austria, Brazil, Bulgaria, Canada, Chile, China, Colombia, Cyprus, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, India, Iran, Iraq, Ireland, Israel, Italy, Japan, Jordan, Kazakhstan, Kuwait, Latvia, Lithuania, Malaysia, México, Morocco, Netherlands, Norway, Palestine, Peru, Philippines, Poland, Portugal, Romania, South Africa, Spain, Sweden, Switzerland, Taiwan, Thailand, Tunisia, UK, United Arab Emirates and the USA.
