History, language arts, literature, and social studies, as well as mathematics and science are shown as platforms for tying critical thinking to moral behavior. And while professional development underlies all chapters in the text, special areas such as technology, curriculum design, recognizing student demographics, and raising social justice awareness in school culture are spotlighted. Among

the topics covered: Reframing social justice for the adult learner. The politics of “being”: faculty of color teaching social justice in the college classroom. Stories of social justice from the kindergarten classroom. Critical literacy and multicultural literature. The shaming: creating a curriculum that promotes socially-responsible online engagement. Literacy is a civil write: the art, science, and soul of transformative classrooms.
